

Using the EWGA Golf Life Management System – My Home Course Edit

The EWGA Golf Life Management System (GLMS) allows each player to establish her or his own Home Course, i.e., the course where they most often play.

To set or change your Home Course:

- go to MY HOME PAGE after you have logged into the GLMS
- click on the red My Home Course Edit button
- choose your Home Course from a pull down menu of courses you have played
- or use the Search Course Directory to select a course
- then select the Tees from which you normally play
- click SUBMIT and your Home Course is set!

After you select a Home Course and go back to your Home Page, notice that under your Handicap Index, you will see in small letters, **Home Course Handicap**. This number will be an integer number which might be slightly higher or lower than your Handicap Index. This is the *Course Handicap* you should use when playing at your Home Course from the tees from which you normally play.

For more information on your USGA Handicap Index, visit the Handicaps section of the USGA website, www.usga.org.
